HIGH EFFICIENCY MONO-PERC

Canadian Solar is happy to announce the launch of its high-power double-glass modules with industry leading mono-PERC cell technology and the innovative LIC (Low Internal Current) module technology. The KuDymond mono-PERC modules can reach up to 370 W.

KEY FEATURES

Higher power output thanks to low NMOT: $42 \pm 2 \text{ }^\circ\text{C}$

Higher module efficiency up to 18.65 %

Increased reliability thanks to lower hot-spot temperature

Lower BoS cost with 1500 V_{DC} system voltage

Low power loss in cell connection

linear power output warranty

product warranty on materials and workmanship

Power Range: up to 370 W

Cell: 144 x mono-PERC cell, 156 x 78 mm

Dimensions: 2000 × 992 × 5.8 mm

Weight: 29 kg

CANADIAN SOLAR INC. is committed to providing high quality solar products, solar system solutions and services to customers around the world. As a leading PV project developer and manufacturer of solar modules with over 20 GW deployed around the world since 2001, Canadian Solar Inc. (NASDAQ: CSIQ) is one of the most bankable solar companies worldwide.
